Visible (Clothing) Mending Workshop

Richview Library

**Saturday March 25, 2-4 PM *or*
Saturday April 1, 2-4 PM**

Visible mending breathes new life into well-loved and worn items by celebrating the beauty in flaws. Rather than hiding repairs, visible mending techniques transform garment defects into beautiful, one-of-a-kind details that allow for self-expression, while preventing items from ending up in landfill.

In this 2-hour, hands-on workshop, Repair Café Toronto's highly skilled fixer will cover a range of visible mending techniques to include patching, sashiko stitching, and simple knit repairs. Participants can bring in their project. Basic mending supplies will be provided.

Space is limited. Customers can sign up for one of the sessions by speaking to staff or calling 416-394-5120.
